

NOTHING BEATS A — **TIMESAVER**

Series RB Multi-Directional Rotary Brush Machine

Timesavers Model 2211-03-9 uniformly deburrs and finishes edges of laser cut, punched and machined parts in one pass, while improving the surface with a random scratch. It's equipped with a multi-directional rotary brush head and offers industry leading standard features, with optional features available to meet your specific application needs. Superior design and construction of the Timesavers Models 2211-03-9 gives you the competitive edge.
